BACHUPALLY

Velvet Ink — Creative Platform

PROJECT BASED LEARNING FROM FWD

Deployed on Apache Tomcat | Access at. `http://localhost:8080/FWD/`

Abstract

Velvet Ink is a mulit-page creative web platform where artists, writers, poets, and fashion creators can upload, share, and discover works across four disciplines. Developed using **HTML5, CSS3, and Vanilla JavaScript** with **localStorage** for client-side-date persistence. It features a masonry art gallery with **filter, likes, and poem responses**, a fashion enitorial reader, literature hub, poetry composer, community discovery with connect system, and full **user authentication** with session management across 10 HTML, pages. Deployed at **http:lllocalhost:8080/FWD/**

System Architecture

Browser (Client-Side Only)
HTML5 · CSS3 · Vanilla JavaScript

↕

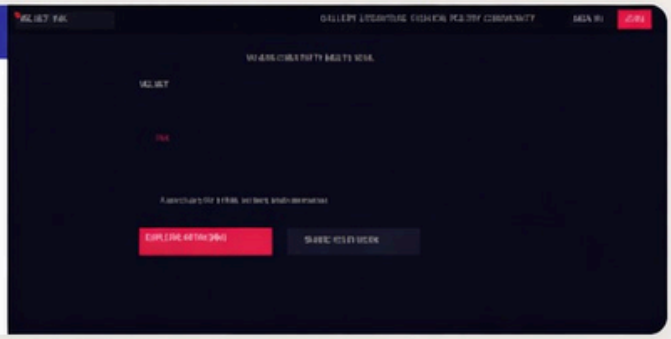
localStorage (JSON Data) ⇄ **10 HTML Pages** (Static Files) ⇄ **Users** (Artists & Vaitoes)

`http://localhost:8080/FWD/`

✦ CO-WISE IMPLEMENTATION ✦

CO1 Internet Fundamentals, HTML & Introductory CSS

- ✔ Responsive lnyout using CSS Piecbon & Grid across all 10 pages
- ✔ Semantic HTM15 — rav, section, articie, header, footer tege
- ✔ Custem CSS animations, scrall-reveal & hero cinematic effects
- ✔ CSS varlables for dark lumity theme — crimson, midhight, cream
- ✔ Google Fonts — Cinzel, Cormorant Garamond, Raleway

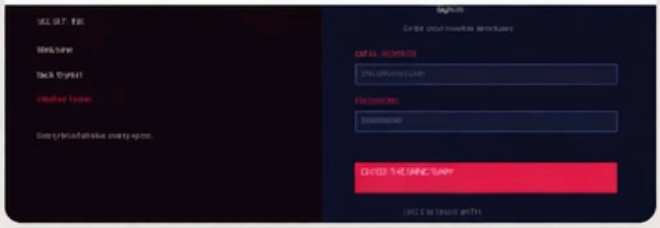


CO2 JavaScript Programming Essentials

- ✔ Gallery tlher by medium — Pamtings, Digilal Art, Photography
- ✔ Like system with localStorage countert upbates per anwork
- ✔ Artwork modal openiclose with dynamic content injection

CO3 Forms, Validation & User Interaction

- ✔ Login & Register with client-aide-credential validation
- ✔ Password strength indicator on register html
- ✔ Upload form with 4 category labs — Art, Poetry, Fashion, Literature



CO4 JavaScript Interactivity, DOM & Events

- ✔ Dynamic.DOM — community cerator cards rendered from JS data
- ✔ Poetry compose & publish with live DOM update on community
- ✔ Real-time search & category ther on community ttiml

CO5 Advanced Web Development & Deployment

- ✔ Full session management will localStorage — login/logput state
- ✔ Cross page data sharing — artworks, poems, messages persist
- ✔ Apache Tomcal — **http:lllocalhost:8080IFWD/**

Conclusion & Future Scope

- Velvet Ink demonstrates **core web development** concepts including responsive UI design, semantic HTML, CSS animations, JavaScript DOM manipulation, cilent-aide data persipesistence localStorage, enulll-page session management, and FileReader API for image uploads. Deployed locally on **Apache Tomcat** at **http://localhost:8080/FWD/**
- Icluses enhancements in compression Pagetiw the cloud deploy, MGOD database, real-time notifications, AI-powered artwork

• **Secure & Scalable** • Client-Side Architecture
